Art Unit: 1794

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 13 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The rejection is maintained for reasons of record in previous office action.

Applicant's arguments filed 8/15/08 have been fully considered but they are not persuasive. The applicant says that one of ordinary skill would just know that the feature is satisfied by the figure but does not say how and thus the rejection is maintained.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 9-14,18 are rejected under 35 U.S.C. 102(b) as being anticipated by Shinohara (5,199,553).

The rejection is maintained and applied to newly presented claim 18 for reasons of record in previous office action.

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 1794

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claim 17 is rejected under 35 U.S.C. 103(a) as being unpatentable over Shinohara et al (5,199,553) in view of Ricketts et al (5,967,860).

The rejection is maintained for reasons of record in previous office action.

7. Applicant's arguments filed 8/15/08 have been fully considered but they are not persuasive. The applicant argues that the newly presented limitation is not achieved by Shinohara et al. The examiner disagrees. The examiner maintains the position that figure 19 provides for the claimed limitation to be satisfied and the applicant has not provide factual evidence to persuade the examiner otherwise and thus the rejection stands.

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 1794

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
